

TIC DOULOUREUX

TRIGEMINAL NEURALGIA ASSOCIATION AUSTRALIA INC.

ABN 33914 644101.

(AND OTHER RELATED FACIAL PAIN)

TNA Support Group Meeting

The mission of TNA Australia (Trigeminal Neuralgia Association) is to serve as an advocate for patients living with Trigeminal Neuralgia (TN) and related facial pain conditions - by providing information, support and encouragement.

“An informed patient is a physician’s best ally.” Dr. Al Rhoton Jr.

We hope to empower patients and carers with information that you may have a better understanding of the pain condition; and by taking ownership of your pain, achieve a better quality of life.

No one needs to suffer in Silence, Alone or Helplessly.

Support group meetings offer friendship and encouragement that removes the isolation of suffering. Together with your doctor you can make informed decision while travelling your pain journey. We hope to offer patients the invaluable support network for sufferers and keep you updated with information on treatment modalities.

TNA Australia will be holding our 4th National Conference

Date: Saturday 3rd & Sunday 4th September 2011

Venue: Hunter Valley, NSW.

Come join us ... Network Learn Enjoy!
